Tactical Medical Solutions[®] is a global leading developer and manufacturer of pre-hospital medical gear for the tactical and civilian world.

We currently have over 2,000 products available and a presence in 70 countries around the world. Here at home, we service 7 of the top 10 police departments, including the NYPD and LAPD, as well as major fire and EMS agencies.

We're proud to say that when customers think of TacMed[™], they think uncompromising - uncompromising commitment to delivering top-quality products, tactical knowledge, customized training, and reliability in the field.

TACMED™ EMERGENCY TRAUMA STATION

CABINET TRAUMA BAG

The TacMed™ Emergency Trauma Station brings proven life-saving medical supplies and instructions together with the most crucial part of an emergency response: the first responder. Individual throw kits are housed in a removable foam-molded case inside of a mountable metal cabinet. The cabinet can be kept in view of the public, such as mounted near an AED or fire extinguisher, or stored in an out-of-the-way place where trained responders can gain access, such as a front office or nurse's office. The cabinet is alarmed, low-profile, and has the capability to be hardwired into a building's existing alarm system so that others may be alerted when a cabinet is opened. Also contained in the cabinet are two Ultra-light Poleless Litters to aid first responders and rescuers with the evacuation of those wounded. The ETS is ideally suited for high traffic areas so it is readily available for public access.

YOUR EQUIPMENT SHOULD NEVER BE A COMPROMISE.

PRODUCT NUMBER	ETS
DIMENSIONS	13"L x 13"W x 7"D
WEIGHT	17.5 lbs
