1x	TacMed™ Tracheal Tool (TSAK-H) Optional

All of the components are neatly vacuum-packed for easy storage and maximum accessibility. This kit comes with the option of including the TacMed™ Tracheal Hook, a device that greatly increases the success rate of cricothyroidotomies in austere environments. The tapered design of the hook minimizes its profile at the incision site, providing the operator with the maximum level of visibility in low light and stressful situations. Its smooth edges also minimize damage to surrounding tissues when tension is applied.
