Tactical Medical Solutions® is a global leading developer and manufacturer of pre-hospital medical gear for the tactical and civilian world.

We currently have over 2,000 products available and a presence in 70 countries around the world. Here at home, we service 7 of the top 10 police departments, including the NYPD and LAPD, as well as major fire and EMS agencies.

We're proud to say that when customers think of TacMed™, they think uncompromising - uncompromising commitment to delivering top-quality products, tactical knowledge, customized training, and reliability in the field.

# TACMED™ WARM ZONE ARK™

Outside pockets for quick access to hemorrhage control devices, poleless litters, & triage equipment.

Red pull handles for easy access & manipulation from strong or weak side.

Ripaway & throwable pouches mounted horizontally for easy access without taking the bag off your back.

The TacMed™ Warm Zone ARK™ is a complete redesign of the standard ARK™ (Active Shooter Response Kit) that carries more lifesaving interventions, is easier to deploy, and incorporates features based on countless training events and actual responses. The Warm Zone ARK™ holds up to 8 fully customizable Casualty Throw Kits that bring 14 SOF® Tourniquets, 14 pressure dressings, and 14 chest injury treatments directly to your warm zone, casualty collection point, or ambulance collection point. Once open, the throw kits can be tossed to other responders and even bystanders due to the bilingual just-in-time instructions found inside. The WZARK™ also excels as a rapid extrication platform by simply replacing the casualty throw kits with the Rescue Task Force Litter.

**YOUR EQUIPMENT SHOULD NEVER BE A COMPROMISE.**
