Tactical Medical Solutions® is a global leading developer and manufacturer of pre-hospital medical gear for the tactical and civilian world.

We currently have over 2,000 products available and a presence in 70 countries around the world. Here at home, we service 7 of the top 10 police departments, including the NYPD and LAPD, as well as major fire and EMS agencies.

We're proud to say that when customers think of TacMed™, they think uncompromising - uncompromising commitment to delivering top-quality products, tactical knowledge, customized training, and reliability in the field.

PACKABLE WOUND TRAINER PWT

The **Packable Wound Trainer (PWT)** is a ruggedized task trainer with a simulated hemostatic wound. The **PWT** is composed of lifelike synthetic skin and includes a hemostatic wound providing trainees with the ability to execute critical patient treatment such as wound packing and compression training. The **PWT** functions as a stand-alone skills station during the crawl phase of training.

PWT KEY BENEFITS

- ▶ Embedded LEDs provide visual feedback when the correct pressure is applied for the correct amount of time in the correct location
- ▶ Can be moulaged prior to use to increase realism
- ▶ Synthetic blood can be fed by syringe through port in base of wound
- ▶ Rugged; can be used repeatedly with little or no maintenance
- ▶ Easy clean-up with water after use
- ▶ Compact design for classroom use and easy storage

PRODUCT NUMBER	KGS-TFX-T-PWT-1		
DIMENSIONS	WOUND DEPTH	1.4"	
	LENGTH	5.25"	
	WIDTH	7.25"	
	HEIGHT	2"	
WEIGHT	2.1 lbs
